

Longhorn Software Launches Poker Kings Texas Hold'em
Entertaining & Captivating PC Game Offers
Exciting Tournament-Style Game Play

LEWISVILLE, Texas – January 12, 2005—Longhorn Software today announced the release of Poker Kings Texas Hold'em for Windows. The premium product provides fun and exciting casino tournament-style Texas Hold'em Poker action. The game lets the user play at a single eight-person table or in a tournament field of 80, 200, or 1000 competitors. All play is off-line versus computer-controlled opponents, so users can play anywhere, anytime.

Features of Poker Kings include adjustable speed setting, complete tournament standings list, and a birds-eye view of the casino floor showing active tables and chip counts of players at each seat. Games in progress can be saved and resumed at a later time. The game also presents the rules of Hold'em Poker in an easy-to-understand format for the novice player. Poker Kings Texas Hold'em is now available via the Longhorn Software website (www.longhornsoftware.com) for a suggested retail price of \$19.99. Free trial downloads are also available via the company website. For additional information on Poker Kings Texas Hold'em for Windows, visit www.longhornsoftware.com.
